

VIA!migo™

iPod® Integration Dock

iPod Music & Video
Everywhere

Controlled from VIA!®
Panels Anywhere

A Powerful Combination

Leave your headphones behind. Sit down, relax and enjoy . . . because all those wonderful tunes and videos in your iPod® can now be heard and seen everywhere in the house.

Control your iPod from anywhere, while viewing “Now Playing” information from any VIA!® Touch Panel or TV in the home.

VIA! & iPod. At home or on the go – bringing you your favorite entertainment no matter where you are.

Make the Most of Your iPod ■

If you own an iPod, chances are you love music. Not just any music - your music. Tunes you personally selected and downloaded. Ditto for TV, movies and music videos. Wouldn't it be nice to have everything that's in your iPod available to you, headphone-free, all around your house? VIA!migo turns your portable iPod into a home-based multi-room audio/video player you can listen to or watch anywhere in the home. Simply place your iPod in the

VIA!migo docking station and, voila!, all your MP3s and MPEGs can be heard and seen in any area that's a part of your ELAN multi-room system.

Simple, User-Friendly Control

Control of your iPod is simple and fun. Once your iPod is docked, VIA! Touch Panels around your home take over, providing you with familiar iPod controls and on-screen “Now Playing” information. VIA!migo can also be viewed on any TV and controlled directly from any learning IR remote control, giving you even more access to your favorite entertainment wherever you are in the house.

. . . And So Convenient!

VIA!migos can be placed anywhere in the house where it's most convenient. You can even have multiple VIA!migos in different locations around the home. All you need to

do is slide your iPod into any dock and it'll be available wherever and whenever you want it.

At Home and On the Go

Through ELAN's powerful combination of products, you can now listen to your music anywhere you want to. While VIA!migo lets you play all your MP3 recordings throughout the house, ELAN's full line of VIA!dj Digital Music Servers give you one-touch, on-screen access to your entire CD collection and includes a fast and easy PC/Mac-to-iPod interface so you can take any of it on the road. At home or on the go, ALL your music is now right at your fingertips.
